Desire to Learn

THE GLORY OF SHRI CHATTAMPI SWAMIKAL

Chattampi Swamikal denounced the orthodox interpretation of Hindu texts citing sources from the Vedas. Swamikal strove to reform the heavily ritualistic and caste-ridden Hindu society of the late 19th century Kerala. Swamikal also worked for the emancipation of women and encouraged them to come to the forefront of society. Swamikal promoted vegetarianism and professed non-violence (Ahimsa). Swamikal believed that the different religions are different paths leading to the same place.

Chattampi Swamikal led a wandering life like an avadutha and throughout his intellectually and spiritually enriched life maintained many friends from different regions of Kerala. He authored several books on spirituality, history, and language staying with these friends.

OUR INSPIRATION

" To attain success in life, the children have to learn how to think for themselves. At the root of every work there is a thought and this thought should aim to achieve something productive. "

Harmony School was founded with a simple yet powerful vision – to create a nurturing environment where children feel safe, valued, and inspired to learn. We believe that education is not just about academic excellence, but about shaping character, building confidence, and developing responsible, compassionate individuals.

Our children are at the heart of everything we do. Each child is unique, filled with potential and promise. It is our responsibility to guide them, encourage them, and provide opportunities that help them discover their strengths and talents.

In an era where education is often dominated by screens and rigid curricula, Nature-based teaching provides hands-on learning, curiosity, and a deep connection with the environment. We at Harmony school follow this philosophy to foster a holistic development model, allowing children to thrive academically, emotionally, and socially while understanding their role in the natural world. At Harmony school, our goal is to create a community of learners who strive for academic excellence, personal growth, and a strong sense of responsibility to their surroundings. We aim to empower every student to reach their fullest potential in a supportive and inclusive environment.

Nature-based teaching is an educational approach that integrates the outdoors and natural elements into the learning process, we believe that nature serves as a powerful teacher, offering endless opportunities for exploration, critical thinking, and creativity. This pedagogy emphasizes experiential learning, environmental stewardship, and fostering a sense of wonder about the natural world.

Therefore, our students always engaged in sustainability practices, such as composting, recycling, tree plantation and use of renewable energy. We have one cow and dog in the campus, taking care of these animals fosters a sense of responsibility and teaches students empathy towards animals. It allows them to engage in hands-on activities like feeding, grooming, or observing the cow, which can promote a deeper emotional connection with nature.

Through innovative teaching, dedicated staff, and a rich array of opportunities in academics, arts, athletics, and nature, we aim to inspire curiosity, creativity, and a lifelong love for learning. We believe in partnering with families and the wider community to ensure that each child develops the skills, confidence, and character needed to thrive in a dynamic and ever-changing world.

Harmony school with a nature-based pedagogy offers more than just academic knowledge, we equip our students with life skills, environmental consciousness, and a profound appreciation for the world around them. By fostering a harmonious relationship between learning and nature, we prepare young minds to sustain culture, future and nature.

DR. ARCHANA SINGH

PRINCIPAL, HARMONY SCHOOL

ICONIC MENTORS

At Harmony School, we are truly blessed to be guided by exceptional leaders who inspire us every day.

Our iconic mentor, Beena Ma'am, is the heart of our institution. Her wisdom, dedication, and unwavering commitment to excellence motivate both teachers and students to aim higher and achieve more. She leads not just with knowledge, but with compassion and vision. Her mentorship has shaped the culture of growth, discipline, and harmony that defines our school. We are equally proud to have Archana Singh, our respected Principal, whose dynamic leadership and strong values continue to elevate our institution. Her clarity of purpose, organizational strength, and encouragement empower the entire staff to work collaboratively toward shared goals. Under her guidance, the school continues to flourish academically and holistically.

Together, their leadership creates a powerful foundation of inspiration, unity, and excellence. They are not just administrators – they are role models, mentors, and the driving force behind our success.

TOGETHER WE CAN SET GOALS & ACHIEVE THEM

Together, we have the power to set meaningful goals and achieve extraordinary results. As educators, we play a vital role in shaping minds, inspiring dreams, and building the future. When we unite with a shared vision, clear objectives, and a commitment to excellence, there is nothing we cannot accomplish.

Together, we can inspire change, overcome challenges, and achieve great milestones for ourselves and our students.

INDIA SCHOOL RANKINGS 2025-26 AWARD

In the India School Rankings 2025-26 Awards conducted by EducationWorld, Harmony School secured Rank 1 in Navi Mumbai, reinforcing its position as a leader in academic excellence and overall development.

EDUCATION EXCELLENCE CONCLAVE 2025 AWARD

At the Education Excellence Conclave 2025, the school leadership received the Rabindranath Tagore National Principal's Award, inspired by the visionary ideals of Rabindranath Tagore. The recognition celebrates outstanding leadership and a transformative approach to modern education.

MOST CULTURALLY PROGRESSIVE SCHOOL AWARD

Harmony School continues to set new benchmarks in excellence with its remarkable achievements across prestigious national platforms. The institution was honoured with the "Most Culturally Progressive School Award" at the MIMAMSA School Awards, recognizing its commitment to inclusivity, cultural awareness, and global perspectives in education.

STAR EDUCATION AWARDS 2025

Ms. Archana Singh, Principal of Harmony School, has been honoured at the Star Education Awards 2025 with the prestigious title of Best Principal in School – Maharashtra, Navi Mumbai.

Under Ms. Singh's dynamic guidance, Harmony School has flourished as a centre of innovation, discipline, and values-based education. Her commitment to nurturing young minds, empowering teachers, and fostering a positive learning environment has strengthened the school community and elevated its standards of excellence.

BEST SCHOOL – INNOVATIVE TEACHING

The school was also awarded the **Best School – Innovative Teaching** at the Maharashtra Educators Summit & Awards 2025. This accolade highlights its forward-thinking pedagogy, technology integration, and experiential learning practices.

ELDROK INDIA K-12 AWARD

Further strengthening its reputation, Harmony School received the Eldrok India K-12 Award for "Excellence in Providing Value Education" at the Eldrok India K-12 Summit, underscoring its emphasis on ethics, character building, and value-based learning.

LEADERSHIP EXCELLENCE CONCLAVE 2025

At the Leadership Excellence Conclave 2025, the school was recognized for Excellence in Promoting Holistic Education, celebrating its balanced focus on academics, arts, sports, and life skills.

EDUCATION TODAY AWARDS FOR HARMONY KIDS

Extending its success to early years education, Harmony Kids achieved Rank 1 – Navi Mumbai at the Education Today Awards, reaffirming the institution's commitment to quality education from foundational stages onward.

Heartiest Congratulations to our Meritorious Students

MAULIK SHARMA, PERCENTAGE SCORED – 92.6%

Success Mantra: Be consistent and enjoy the journey, make sure you give your best at every moment.

Daily Routine: I usually woke up by 7:30 AM and got freshen up. I planned my goals for the day, i.e. what chapters/topics to be covered today and revised the chapters, mainly referring to the NCERT textbooks & watch relevant YouTube videos. Once the revision was complete, I did mock tests to assess my preparation. Then, I had a short afternoon nap to recharge. Then I solved 1 'Past 10 years' question paper a day. To stay physically active, I played cricket for a couple of hours. After dinner, I also went over the mistakes I've made in previous tests or assessments to avoid repeating them. Finally, I wind up and go to sleep.

Way to study Difficult subject: Mathematics was the most challenging subject for me. I often made silly mistakes. I still remember scoring just 27 out of 80 in the pre-board exam. That moment became a turning point—I took it as a challenge and committed myself to improving. I carefully analysed every mistake after attempting 2-3 mock tests for each chapter. I revised the concepts to strengthen one chapter at a time. For the board exams, I revised the course using R.S. Aggarwal and NCERT. All the hard work paid off, and I was proud to score 93 out of 100 in Mathematics in the Board Exams.

Future Aims : For now, I aim to score more than 98% in 12th Boards and then serve the society.

"My vision is to inspire others to dare to dream, dream bigger, and aim higher. I strive to be the best and to leave the legacy of a champion."

FIIRST PRIZE VICTORY AT THE INTER-SCHOOL GROUP DANCE COMPETITION!

Harmony School shines bright again as our talented students bagged the First Prize in the Group Dance Competition at DPVN Fiesta 2025–26

Their energetic performance, teamwork, and passion for dance truly mesmerized the audience and judges alike.

A big round of applause to our amazing dancers and mentors for this fantastic achievement!

FIRST PRIZE AT SMT. SARADA KURUP MEMORIAL INTER-SCHOOL DANCE COMPETITION

FIELD VISIT

VISIT TO ACTREC, NAVI MUMBAI

On November 8, 2025, the students of Grade 10 visited the Advanced Centre for Treatment, Research and Education in Cancer (ACTREC), Navi Mumbai, as part of an educational excursion. The visit aimed to enhance our understanding of cancer research, treatment methods, and recent scientific advancements in oncology.

FIELD VISIT TO FIRE STATION

Harmony School's Pre-Primary and Grade 1 students had an exciting and educational field visit to Fire Station Kharghar. The trip was organized to help our young learners understand the important role firefighters play in keeping our community safe.

SPREADING JOY, ONE PLATE AT A TIME

In a heartwarming display of kindness and teamwork, Class IX students made a difference in the lives of Narmada Niketan's residents. Their Food Fiesta, held on school premises, was a massive success, with students taking on various roles to whip up delicious treats and manage sales.

The real victory, however, was the joy they brought to the old age home. Essential groceries, health supplies, warm blankets, and more were donated, spreading smiles across faces. This initiative showcased the power of hard work and giving back. As our students say, "Money earned through hard work tastes sweetest when it brings a smile to someone else's face!"

SPACE VISIT: COSMOS DOME PLANETARIUM

Cosmos Dome Planetarium – Space Ka Safar took our Harmony School students from Prep to Grade 10 on an exciting 360° journey through the wonders of the universe.

They explored distant galaxies, marveled at the beauty of planets, understood the mysteries of the solar system, and learned fascinating facts about space science. An unforgettable educational experience that sparked curiosity and inspired young minds to dream beyond the stars!

During the activity, students were embarked on an incredible journey through the cosmos. They witnessed stunning views of distant galaxies, learned about the formation of stars and planets, and delved into the mysteries of the universe. The expert presenters guided the students through an engaging and interactive session.

With breathtaking simulations of the night sky and deep space, the planetarium transformed abstract concepts into vivid visuals—helping students to comprehend the whole universe.

Our Pre-Primary stars truly stole the show with their boundless energy, bright smiles, and adorable performances! Fondly called our "Cutie Pie Champions," these little learners proved that confidence and enthusiasm have no age limit.

With their tiny steps and big dreams, they participated wholeheartedly in various fun-filled activities and races. Their excitement, colourful costumes, and cheerful laughter filled the atmosphere with joy and positivity.

“Our cutie pies don’t just participate – they shine!”

GRADUATION CELEBRATION

Graduation Day was celebrated with warmth and enthusiasm. The ceremony marked an important milestone for the pre-primary students, symbolizing their readiness to step into a new phase of learning.

The event began with the traditional lighting of the lamp, signifying knowledge and new beginnings. Cultural performances, songs, and presentations by the students brought smiles to every face.

The most heartwarming moment was the Graduation Walk. Dressed in caps and gowns, the students proudly received their certificates amidst applause from parents and teachers. It was a moving sight—tiny hands holding big dreams and proud parents witnessing a special milestone.

Graduation Day became more than a ceremony; it was a celebration of learning and partnership between parents and educators. The event reinforced the importance of foundational education and nurturing each child with care as they move forward with confidence and strong values.

INVESTITURE CEREMONY

The Investiture Ceremony was organized to officially appoint the student leaders for the academic year and to encourage leadership qualities among students.

The ceremony highlighted the importance of responsibility, discipline, and teamwork. The newly selected leaders marched forward confidently to receive their badges and sashes, symbolizing the trust placed in them by the school.

Harmony School appointed student leaders in all sections – Secondary, Primary, and Pre-Primary. The positions included President, Ministers, Head Boy, and Head Girl in each section. This initiative reflects the school's commitment to nurturing leadership skills from a young age and giving every student an opportunity to grow and serve.

The elected leaders took the oath solemnly, promising to carry out their duties sincerely and uphold the values and traditions of the school. The Principal congratulated the newly appointed leaders and encouraged them to lead with honesty, confidence, and dedication.

The Investiture Ceremony at Harmony School was a memorable event that celebrated leadership, responsibility, and unity.

EDUCATIONAL TRIP

"EDUCATIONAL TRIP TO SILVASSA

Our students from Classes VI to X embarked on an exciting 3 days and 2 nights educational trip to Silvassa, a journey filled with adventure, exploration, creativity, and unforgettable memories.

One of the major highlights was a thrilling visit to Magic Forest Adventure Park at Wada, where students challenged themselves with a variety of adventure activities such as Ladder Climbing, Commando Crossing, Trust Walk, River Crossing, and many more. These activities not only built confidence and courage but also strengthened teamwork and trust among peers.

Adding a cultural touch to the trip, students enjoyed a hands-on experience with traditional Warli Painting. The fun continued with music, games, and entertainment sessions that filled the evenings with laughter and bonding. A factory visit provided practical exposure and insight into industrial processes, making learning both interactive and meaningful.

The wildlife experience was equally exciting. Students visited the Lion Safari and Deer Park, where they observed animals in their natural habitat, enhancing their understanding of wildlife and conservation. Throughout the trip, students were well taken care of with breakfast, lunch, and dinner included, ensuring comfort and energy for each day's activities.

The Silvassa trip was a perfect blend of education, adventure, cultural exposure, and recreation. It not only created cherished memories but also fostered independence, teamwork, and experiential learning among students.

"EDUCATIONAL TRIP TO MONTERIA VILLAGE

Picnics and excursions offer students a chance to learn in a fun-filled environment, allowing them to explore new places, bond with friends, and gain hands-on experience. Students from Grade I to V embarked on an exciting and educational trip to Monteria Village, Navi Mumbai.

Students were warmly greeted with refreshing drinks and a delicious breakfast. Energized and ready, they were eager to explore the itinerary filled with engaging activities that combined education, culture, and recreation.

ANNUAL DAY: उत्सवानां संगमः

"UTSVANANAM SANGAMA": A SPECTACULAR CELEBRATION OF TALENT

Harmony School's annual day function was a vibrant showcase of talent, culture, and unity. The event kicked off with the symbolic lighting of the lamp, followed by the soulful rendition of the prayer "Vakratunda Mahakaya".

The Ganesh Vandana dance set the tone for a day filled with mesmerizing performances. The skit on Tenali Raman had the audience in splits, while the Chirmi folk dance showcased the rich cultural heritage of the region.

The energy was palpable with the Garba and Koli dances, followed by the powerful Thayyam and Jhumair performances. The Graduation Day celebration added a touch of pride and nostalgia to the event.

The Bihu and Punjabi dances brought the house down with their infectious energy, while the Pangri and Hojagiri dances showcased the diversity of Indian culture. The Krishna Leela was a masterful display of acting and devotion.

The event culminated with the rendition of "Vande Mataram", leaving the audience in awe of the talent displayed by the students of Harmony School.

ANNUAL SPORTS DAY: URJA

Harmony School celebrated its much-awaited Annual Sports Day – “Urja 2026” with unmatched enthusiasm, vibrant performances, and true sporting spirit. The event was a grand showcase of energy, discipline, teamwork, and talent.

The programme commenced with a warm Welcome to the esteemed Chief Guest, Dr. Nath, a respected medical professional and corporator. The ceremonial Lamp Lighting marked the auspicious beginning of the event, symbolising knowledge and positivity. This was followed by a soulful Prayer and a graceful Prayer Dance that created a serene and inspiring atmosphere. The Welcome Speech highlighted the importance of sports in shaping character and leadership qualities, while the melodious Welcome Song added joy and warmth to the celebration. The school proudly felicitated Dr. Nath in appreciation of his gracious presence and valuable contribution to society.

A key highlight of the day was the Lighting of the Torch, symbolising determination, unity, and the undying spirit of sportsmanship. The impressive March Past by the school houses reflected discipline, coordination, and pride. The Oath Taking Ceremony reaffirmed the participants’ commitment to fairness and integrity. The colourful Release of Balloons added vibrancy and excitement to the occasion.

The cultural segment added glamour and excitement to the event. The energetic Pom-Pom Dance enthralled the audience, the well-coordinated Pyramid showcased strength and balance, and the traditional Lazim performance filled the ground with rhythm and enthusiasm. The playground echoed with cheers as participants displayed remarkable athletic skills and team spirit.

The Annual Sports Day truly embodied its name – radiating “Urja” through energy, excellence, and enduring sportsmanship.

SCIENCE ODYSSEY: WOMEN IN SCIENCE – CATALYZING VIKSIT BHARAT 2026

Harmony School celebrated National Science Day on February 26, 2026, with immense enthusiasm and curiosity under the inspiring theme “Science Odyssey: Women in Science – Catalyzing Viksit Bharat 2026.”

The program commenced with a special assembly that set an inspiring tone for the day. Students from the primary and secondary sections spoke about the significance of C. V. Raman and his remarkable discovery of the Raman Effect, for which he was awarded the Nobel Prize.

The highlight of the celebration was the grand Science Exhibition, where students presented innovative models and working projects. The exhibits included impressive demonstrations on the evolution of atomic structure, gravitation, natural disasters, sustainable management, innovative agricultural practices, applications of reflection and dispersion of light, robotics, human physiology, and a hydraulic crane based on Pascal’s Law. Students also showcased working models of human organ systems, the solar system, rainwater harvesting, water purifiers, the water cycle, photosynthesis, and various sustainable science projects. A special attraction was a creatively designed rocket model inspired by Indian Space Research Organisation, made using best-out-of-waste materials.

Students confidently explained their projects, reflecting both deep understanding and creativity. Engaging activities such as science quizzes, rangoli-making competitions, and skits further enriched the celebration, encouraging active participation and teamwork.

Science is a continuous journey—an odyssey that leads to knowledge, innovation, and progress—empowering young minds to observe, question, and explore the world around them with confidence and curiosity.

WORLD EARTH DAY

One of the first conditions of happiness is that the link between man and nature shall not be broken." Harmony School celebrated World Earth Day under the theme "Our Power, Our Planet" with meaningful eco-friendly activities. Students actively participated in Seed Bomb making, coconut shell decoration, and recycling and upcycling projects.

These hands-on experiences helped students understand the importance of greenery, biodiversity, and ecological balance. The activities encouraged creativity, responsible use of resources, and environmental awareness.

The celebration connected practical learning with global sustainability goals and inspired students to take small yet impactful steps towards building a cleaner, greener, and more sustainable future for our planet.

"Harmony with the environment is the need of the hour." World Environment Day was celebrated with great enthusiasm under the Earth's Guardian Club. Students participated in tree plantation drives, planting flowers and herbs in the school garden to understand the importance of greenery. An upcycling activity transformed old T-shirts into useful bags, promoting sustainable habits. Senior students attended a composting workshop and field visit at Raghunath Vihar Community to learn organic waste management.

These activities fostered responsibility, creativity, and environmental consciousness, empowering students to actively contribute towards protecting nature and building a healthier planet.

WORLD ENVIRONMENT DAY

FATHER'S DAY (14th June)

Father's Day was celebrated with joy and warmth for Grades 1 and 2 under the guidance of Principal Ms. Archana Singh. The day honored fatherhood, paternal bonds, and the invaluable role fathers play in nurturing families. Students presented dances, poems, and songs expressing gratitude and love for their fathers.

Fun-filled games strengthened the bond between fathers and children, creating cheerful memories. A special photo session captured these heartfelt moments.

The celebration beautifully highlighted togetherness, appreciation, and respect, making it a memorable occasion for both students and their loving fathers.

INTERNATIONAL YOGA DAY

“Yoga is the journey of the self, through the self, to the self.” – The Bhagavad Gita International Yoga Day was celebrated for Grades 1–5 under the theme “Yoga for One Earth, One Health.” Students performed various yoga poses such as Tree Pose, Butterfly Pose, and Mountain Pose, improving balance and flexibility.

Teachers guided them through breathing exercises and relaxation techniques. The celebration emphasized the connection between personal well-being and environmental harmony. The energetic session inspired students to adopt yoga as a daily practice for maintaining a healthy body, peaceful mind, and balanced lifestyle.

GURU PURNIMA CELEBRATION

“Guru is creator Brahma; Guru is preserver Vishnu; Guru is destroyer Shiva.” On the auspicious occasion of Guru Purnima, the school organized a poster-making competition for Grades 1–4 and an elocution competition for Grades 5–10.

Junior students created colorful posters expressing respect and gratitude towards teachers. Senior students delivered confident speeches highlighting the importance of gurus in shaping lives and values. The event fostered creativity, confidence, and appreciation for teachers.

The celebration was a heartfelt tribute to mentors who guide students towards knowledge, wisdom, and character development.

MAGIC MAKER – NO HEAT CREATOR

Harmony School organized the “Mom the Chef – Cook Without Flame” competition for the Mom-Child Duo. The event celebrated creativity, teamwork, and healthy eating habits. Participants prepared innovative and nutritious dishes without using fire, such as Sev Puri, Khakra Pizza, Pinwheel Sandwiches, Nachos Bhel, and Fruit Salad.

The competition encouraged culinary skills, presentation techniques, and bonding between mothers and children. Judges appreciated the taste and creativity of each dish.

The event provided a wonderful platform to showcase talent while promoting healthy and safe cooking practices.

KARGIL VIJAY DIWAS

Kargil Vijay Diwas was observed with pride and patriotism to honor the bravery of Indian soldiers. Students from different grades participated in meaningful activities.

Grades 1 and 2 recited patriotic poems, while Grades 3 to 5 presented inspiring stories from the Kargil War and took part in an inter-house quiz competition. Students of Grades 6 to 9 expressed their respect through impactful slogan writing.

The celebration deepened students' understanding of sacrifice, courage, and national pride, instilling gratitude for the armed forces who protect our nation.

RAKHI MAKING ACTIVITY

The Rakhi-making activity fostered creativity, cultural awareness, and fine motor skills among students. Participants designed unique rakhis using threads, beads, ribbons, and eco-friendly materials. Grades 1 to 3 followed the theme "Best Out of Waste – Eco-friendly Decorative Rakhis," encouraging sustainability. Grades 7 to 10 created beautiful woollen rakhis with artistic designs.

The activity provided a wonderful platform for students to showcase imagination and craftsmanship. It also highlighted the importance of handmade and eco-friendly celebrations while strengthening cultural values and traditions.

SANSKRIT DIWAS

संस्कृतं सर्वशास्त्राणि वाङ्मयं च प्रकाशयेत्।
यदा तदा तु संस्कृतं विश्वं तस्य विकासयेत्॥"

Our school celebrated Sanskrit Day with great enthusiasm to honour the richness and importance of the Sanskrit language. Students actively participated in shloka recitation, speeches, slogan writing, and role plays, showcasing their appreciation for India's cultural and literary heritage.

Some students also presented songs and dialogues in Sanskrit, creating a vibrant and traditional atmosphere. The celebration encouraged everyone to respect, preserve, and promote Sanskrit in daily life.

INDEPENDENCE DAY

Raise your fist High-For the struggles of the past. The pride of today and the promise of tomorrow.

Harmony School celebrated Independence Day with great enthusiasm through a series of engaging activities. Students participated in a tri-colour food activity, painting competition, fancy dress show, and quiz competition, each highlighting patriotism and national pride. Children creatively expressed their love for the country through art, costumes of national leaders, and knowledge-based challenges.

The celebrations promoted unity, creativity, and awareness of India's rich heritage, making the event joyful and memorable for all.

JANMASHTAMI CELEBRATION

The atmosphere was filled with spiritual fervor, joy, and the sweet aroma of flowers as Harmony School celebrated Janmashtami, the birth of Lord Krishna, with immense enthusiasm. The celebration served as a bridge between culture and character-building, allowing children to understand the significance of the "Makhan Chor" and his beloved Radha through an engaging, themed event-Fancy Dress Competition. The Boys as Krishna: Young boys appeared in adorable Krishna avatars, dressed in vibrant yellow dhotis (or silk, zari-bordered dhotis), accessorized with peacock feather crowns (mukut), wooden flutes (bansuri), and 3-layered mala necklaces. and many brought props like small earthen pots (matki) to depict the mischievous 'Makhan Chor'. Girls were dressed as Radha or Gopis in traditional, elegant Lehengas or Chaniya Cholis, adorned with colorful bangles, anklets, and delicate jewellery representing the devotion and companionship in the stories of Vrindavan.

SRI CHATTAMPI SWAMIKAL JAYANTI

On 21 August 2025, our school celebrated Sri Chattampi Swamikal Jayanti with various competitions for Grades 1-10. A coloring competition was held for Grades 1 and 2, while Grades 4-10 participated in an essay writing competition on "Sri Chattampi Swamikal: A Great Social Reformer." Students of Grades 3-10 also took part in a portrait-making competition. The activities helped students understand his life, values, and contributions to society. The celebration was a grand success, promoting creativity, learning, and inspiration among all participants.

GANESH CHATURTHI

our school celebrated Ganesh Chaturthi on 26 August with creative and eco-friendly activities for Grades 1–10. Students of Grades 1–4 participated in a Ganesh idol clay-making activity, crafting idols with devotion and creativity. Students of Grades 5–9 took part in face platter decoration using pulses, grains, and leaves on A4 cardboard. The celebration promoted artistic expression, environmental awareness, and cultural values. Both activities were a great success, making the festival meaningful and memorable for all students.

NATIONAL NUTRITION WEEK

National Nutrition Week was observed from 9–12 September 2025 for Grades 1–10. Various activities were conducted to promote healthy eating habits and awareness about balanced diets. Primary students participated in a Salad Making Competition, while secondary students engaged in a Green Platter Competition. An awareness session on healthy food choices and a school-wide Sprout Day were also organized. The activities encouraged the use of fresh produce, highlighted the benefits of green vegetables, and promoted nutritious food choices. The week was a great success, fostering positive dietary habits and health awareness among students.

HINDI DIWAS

The Hindi Debate Competition was held on 12 September 2025 for Grade IX as part of Hindi Fortnight celebrations. The topic, “Digital Yug mein Hindi ka Mahatva,” encouraged students to express their views on the relevance of Hindi in the modern digital era. Participants confidently presented well-structured arguments, showcasing critical thinking, clarity of expression, and persuasive speaking skills.

The competition promoted linguistic awareness and strengthened students’ appreciation for the Hindi language in today’s world.

ONAM CELEBRATION

Onam is a popular and much-beloved harvest festival in India that's predominately celebrated in Kerala. There are many ways to celebrate Onam, like the iconic snake boat race (Vallam kali), making rangolis (Pookalam) and traditional folk dance. Our school celebrated Onam with great joy through traditional dances, songs, and a beautiful cultural programme. These activities helped us understand and appreciate India's rich heritage. Onam reminds us to stay united, spread happiness, and be grateful for what we have. Let us celebrate every festival with love, respect, and togetherness.

GRANDPARENTS DAY

A grandparent is a little bit parent, a little bit teacher, and a little bit best friend.

Our school joyfully celebrated Grandparents' Day on 20th September 2025 for Prep, Grade 1, and Grade 2. Grandparents were invited to campus for a memorable day filled with love and togetherness. Students presented poems, songs, dances, and a short skit to express their gratitude.

Fun interactive games were also organised, creating laughter and happy moments. The celebration was a great success, strengthening family bonds and creating cherished memories for both children and their grandparents.

FOOD FIESTA CELEBRATION

The Fun Fiesta held on Children's Day was a vibrant and joy-filled event that brought smiles to every child's face. The school campus came alive with laughter, music, and a festive spirit as students celebrated this special day dedicated entirely to them. The celebration began with a warm welcome and cheerful decorations that set the tone for the day.

The Fun Fiesta not only provided entertainment but also fostered a sense of togetherness, joy, and appreciation for the innocence and creativity of childhood. The event concluded with heartfelt wishes for the children's bright future, leaving behind cherished memories for everyone.

FORESTS

Forests are gifts of nature
Before cutting just think of future.

Forests are so good!
Forests give us food.

Adding beauty to our eyes.
This is what forest implies

Giving us timber, medicine, honey, fruits, rubber and oil
Forests conserve the soil

Forests make the earth so green;
Forests keep the earth so clean.

Forests are homes to bird and animal;
To all creatures great or small.

Forests are lungs of earth
We should know it's worth

Remember! There will be no rain
Only pain
If there are no forests
There will be no individual
Remember! Forests are our wealth.
We should save forest to save Earth.

- SARVESH SHINDE, 5 BLUEBELL

LAUGHTER IS THE BEST TONIC.

DAFFY DEFINITIONS!

POLITICIAN: A PERSON WHO SHAKES HAND BEFORE THE ELECTION AND SHAKES YOU COMPLETELY THE AFTER THE ELECTIONS.

ARCHAEOLOGIST! A PERSON WHOSE CAREER LIES IN RUINS.

SCIENTIST: A PERSON WHO SIMPLIFIES THE THINGS WHEREAS A PHILOSOPHER IS A PERSON WHO COMPLICATES THE THINGS.

DAFFY PROVERBS!

WHERE THERE IS WILL THERE IS A LAWYER TO UNSETTLE THE ESTATE.

ALL ROADS LEADS TO TRAFFIC JAM.

TOO MANY ELECTRICIANS MAKE LIGHT WORK.

AN APPLE A DAY KEEPS THE DOCTOR GOING.

BELIEVE AND RISE

Life gives chances every day,
To learn, to grow, to find our way.
Do not fear the steps you take,
Every fall makes you awake.
Mistakes are lessons in disguise,
They help us grow strong and wise.
With education as our light,
We can turn our dark to bright.
Be bold, be confident, stand tall,
Trust yourself, you can conquer all.
Help yourself and you will see,
The best version you can be.
So rise with courage, shine so bright,
Chase your dreams with all your might.
Believe in yourself, hold on tight—
Your future glows with endless light.

सद्धिचाराः

उत्तिष्ठत जाग्रत प्राप्य वरान्निबोधत।

क्षुरासन्नधारा निशिता दुरत्यद्दुर्ग पथस्तत्कवयो वदन्ति॥

अर्थात् तुम्हारे रास्ते कठिनाइयों से भरे हुए होंगे। अति दुर्गम रास्ता का भी सामना तुम्हें करना पड़ सकता है। लेकिन लोग कहते हैं कि कठिन रास्ते चलने के लिए ही बने हैं। इसलिए उठो जागो और अपने लक्ष्य की प्राप्ति के लिए अग्रसर हो।

आलस्यं हि मनुष्याणां शरीरस्थो महान् रिपुः।

नास्त्युद्यमसमो बन्धुः कृत्वा यं नावसीदति॥

अर्थात् मनुष्य के शरीर में स्थित आलस्य ही उसका सबसे बड़ा शत्रु है। परंतु मेहनत के समान दूसरा उसका कोई मित्र हो ही नहीं सकता क्योंकि परिश्रम करने वाले कभी दुखी नहीं होते हैं।

कर्मण्येवाधिकारस्ते मा फलेषु कदाचन।

मा कर्मफलहेतुर्भूर्मा ते सङ्गोऽस्त्वकर्मणि॥

अर्थात् जीवन में कर्म करते रहना चाहिए फल या किसी चीज की आशा किए बगैर। तुम स्वयं अपने कामों के लिए अपना फल निर्धारित नहीं कर सकते हो और ना ही तुम्हें अकर्मण्य रहना चाहिए।

अलसस्य कुतः विद्या अविद्यस्य कुतः धनम्।

अधनस्य कुतः मित्रम् अमित्रस्य कुतः सुखम्॥

अर्थात् जिस प्रकार आलसी व्यक्ति को विद्या की प्राप्ति नहीं होती, उसी प्रकार अनपढ़ या मूर्ख व्यक्ति को धन लाभ नहीं होता, दरिद्र मनुष्य को मित्र की प्राप्ति नहीं होती, और अमृत को सुख की प्राप्ति नहीं होती।

कार्य पुरुषकारेण लक्ष्यं सम्पद्यते।

जो व्यक्ति अपने प्रयासों और मेहनत से काम करता है, वही अपने लक्ष्य को प्राप्त करता है।

भवतः लक्ष्यं भवतः जीवनम् अस्ति।

आपका जीवन वही है जो आपका लक्ष्य है; लक्ष्य ही जीवन को दिशा देता है।

कालवित् कार्य साधयेत्।

जो व्यक्ति समय का सही उपयोग करता है, वह अपने कार्यों में निश्चित सफलता प्राप्त करता है।

आत्मायत्तौ वृद्धिविनाशौ।

आत्म-नियंत्रण में वृद्धि और जीवन में स्थिरता होती है, वहीं आलस्य और असंयम विनाश की ओर ले जाते हैं।

धैर्यं सर्वत्र साधनम् विनयं सर्वत्र रक्षणम्॥

ज्ञानं सर्वत्र पूज्यते।

धैर्य जीवन के हर क्षेत्र में सफलता का माध्यम है, और विनम्रता हर परिस्थिति में हमारी रक्षा करती है ज्ञान हर जगह पूजनीय है। यह श्लोक इस बात पर जोर देता है कि असफलताओं और विपरीत परिस्थितियों में भी हिम्मत नहीं हारनी चाहिए, बल्कि दृढ़ता और धैर्य के साथ अपने लक्ष्यों की ओर बढ़ते रहना चाहिए।

MY PARENTS

My parents are my guiding light,
They show me the path that is right.
With love and care they help me grow,
Their endless support they always show.
They sacrifice so much for me,
And shape my life so beautifully.
In every trouble they hold my hand,
And help me rise, strong and stand.
Parents are blessings sent from above,
They fill our lives with endless love.
So always respect them, care and pray,
And keep their smiles bright every day.

- MEHER MEHTA, 5 ASTER

A+

Who is a teacher or mentor who has had a meaningful impact on your life, and what is one lesson they taught you that changed the way you think or act?"

Some teachers teach chapters. A few teach life lessons that stay forever.

Anju ma'am, my mother teacher, always says, "Just try even trying is a win."

Those simple words quietly changed everything for me. I stopped chasing perfection and started showing up each day with courage, effort and a hopeful heart. Even when I stumble or fail, her gentle voice encourages me:

"Try again, keep going."

Failure no longer scares me, what scares me is giving up without a try. This powerful lesson has become the solid foundation of who I am today.

WHERE COLOURS WHISPERED TO ME

This summer, I didn't travel far- I travelled deep, into my imagination. A blank page, a pencil, and soft music became my world. I sketched wildflowers, dreamy skies and stories without words. Day by day, art turned into my quiet language of peace and reflection. I wasn't just drawing - I was discovering myself. In stillness, colours spoke to me. And in every line, I found joy, freedom, a little magic and a sense of belonging I never expected. There is an ultimate joy beyond measure in captivating the nature & mother nature is an Excellent teacher.

- NIVEDIKA SHARMA, 9 ASTER

I AM NOT JUST A STUDENT

I am not just a student

I am a vessel brimming with dreams,
navigating the storms of expectations.

I carry heavy textbooks, their spines creased
with the invisible burdens inside.

and chase futures sketched in chalks on fading
black boards, visions just out of reach

They notice the ID card that marks my presence,
but they overlook the racing thoughts that spiral
through unsolved questions,

or the immense weight of striving for perfection

I rise before the sun,

I trade vibrant celebration for relentless deadlines
and the carefree laughter of youth for an ambitious pursuit.

Self-worth jousts with the weight of grades,
and by the daunting specter of failure.

I am more than just a student.

I am defined by more than mere percentages,
more than the neatly inscribed ink etched onto my
report card.

I am a mosaic of scars and quiet courage,

I am a masterpiece.

- JYOTISHKA MISHRA, 9 BLUEBELL

 **IS THE CURRENT EDUCATION SYSTEM ADEQUATELY PREPARING US FOR REAL-LIFE CHALLENGES?** Education is one of the most powerful tools for shaping our future. It teaches us how to think critically, make informed decisions, and contribute meaningfully to society. As Nelson Mandela once said, “Education is the most powerful weapon which you can use to change the world.” Yet, many students today still wonder – is our education system truly preparing us for the challenges of real life? To be fair, education has come a long way compared to the past. Modern classrooms are far more creative and interactive. Learning does not just happen through textbooks anymore—we participate in discussions, projects, and digital lessons. Tools like smart boards and collaborative tasks make learning more engaging and enjoyable. Science now focuses on innovation rather than only formulas, and English encourages us to express ideas instead of just memorising grammar. As John Dewey said, “Education is not preparation for life; education is life itself.” Schools are also beginning to teach important topics such as mental health, climate change, and global citizenship. These lessons help us understand the world beyond our classrooms. Many schools now include skill-based programs like coding, robotics, and public speaking—activities that build confidence and prepare us for future careers. However, despite these improvements, some issues remain. Too often, students study for grades instead of real understanding. Exams tend to reward memorisation rather than creativity or problem-solving. Albert Einstein once said, “Education is not the learning of facts, but the training of the mind to think.” Unfortunately, our people still focus too much on marks instead of mindset. Practical life skills such as financial management, coping with stress, or handling failure are rarely taught. As a result, many students leave school feeling unprepared for adult responsibilities. There is also an imbalance in resources—while some schools have access to technology and labs, others struggle to meet basic needs. Another challenge is that the system often values grades more than individuality. Not every student shine in academics; many are talented in art, music, or sports, which deserve equal respect. Schools now encourage creativity and diverse ways of thinking. Some students face challenges and must develop their own ideas to succeed. Additionally, schools have begun to emphasise sports, encouraging students to participate in competitions such as the DSO and Inter-school competition. True education should inspire curiosity, not fear. It should help us learn to question, explore, and grow. As Malcolm X said, “Education is the passport to the future, for tomorrow belongs to those who prepare for it today.” If we can balance knowledge with life skills and creativity, our education system will not only prepare us for exams – it will prepare us for life. If we balance knowledge with life skills and creativity, our education system will not only prepare us for exams but also for life. “Education is the best friend. An educated person is respected everywhere. Education beats the beauty and the youth.” - JYOTISHKA MISHRA, 9 BLUEBELL

Who is a teacher or mentor who has had a meaningful impact on your life, and what is one lesson they taught you that changed the way you think or act?"

Deepali Ma'am has a profound influence on my personal and academic development. Her empathetic guidance and belief in my capabilities nurtured my confidence and ambition. One pivotal lesson she imparted the value of perseverance – that sustained effort and resilience are essential for meaningful growth. Her words, "Progress is more important than perfection," reshaped my perspective and encouraged me to approach challenges with a growth mindset. Deepali Ma'am's mentorship instilled in me a lifelong appreciation for learning and self-improvement, and her influence continues to guide my actions with purpose and determination.

MY JOURNEY IN HARMONY

I have been a student at harmony school since class 1, and now being in class 10, I feel very my emotional that this is my last year . The word 'harmony' means peace, unity and togetherness and my school truly lives by this name. Our teachers are always supportive. They teach us life values along with lessons and always encourage us to do our best. Because this is our final year our school is also planning many educational field trips to make our last year more meaningful and memorable Harmony school has shaped my personality and prepared me proud and thankful for the future. I will always feel to be a part of it

FINDING YOURSELF: NAVIGATING IDENTITY IN YOUR TEENAGE YEARS

Being a teenager can feel like being in the middle of a storm. One moment you're confident, and the next, you're not sure who you are at all. That's totally normal because your teenage years are a time of self-discovery. You're figuring out what you believe, what matters to you, and how you want to be seen in the world. This journey of finding yourself is both confusing and powerful. remember that you are not defined by one moment, one label, or one mistake. Maybe you were quiet last year but feel ready to speak up now. Maybe your interests have shifted from sports to music or from reading to coding. That's growth not confusion. Every version of you along the way is valid. Finding yourself isn't about creating a perfect image; it's about learning, evolving, and being honest with yourself. Let your journey be messy, brave, and unapologetically real. Sometimes, your thoughts can feel like a tangled mess overwhelming and hard to make sense of. having an honest conversation with someone you trust like a friend, teacher, sibling, or counselor can bring clarity and support. Saying things out loud often makes them feel more real and manageable. Whether it's writing on paper or opening up to someone, letting your thoughts out is a powerful step toward understanding yourself better. So be patient with yourself. Trust the process. And remember: you don't have to find yourself all at once sometimes, you discover who you are one day, one decision, and one moment at a time

- SWARA DHANWADE, STD 9 BLUEBELL

OUR GUIDING STARS

Teachers, like stars in the endless night, Guiding lost souls with their guiding light unsung heroes, with hearts pure and deep, sowing seeds of knowledge, while many sleep. They shape young minds, like a Sculptor 's art, igniting passions, right from the start with patience and care, they gently lead, helping us grow, in thought and deed. A classroom, there second home, it true, where dreams take flight, and spirits renew. Like mothers, there nurture, with tender care, dispelling doubts, with gentle prayer. Behind the desk, a world of toil, correcting errors, with a patient smile. Endless hours, spent in preparation's art, to mold young minds, and play their part. Through thick and thin, they are always there, supporting us, with constant care. A listening ear, a helping hand, guiding us through life's ever shifting sand. So let us praise them, with grateful heart, for their selfless deeds, and their noble art. Teacher's, you are our inspiration's source, shaping futures, with incredible force.

- EKMEET KAUR CHAHAL, 5 CARNATION

LEARNING BEYOND BOOKS

As a student, I have always shown devotion towards my academics . In this journey , I have realized that school is not just about textbooks and exams – it is where we discover who we are . Every single group project teaches teamwork , every debate builds confidence , and even the failures teach us how to bounce back stronger . As students , we need to focus not just on marks , but on skills like empathy , creativity and critical learning . Real education lies in asking questions, exploring ideas , solving real world problems . The future needs thinkers , not just toppers .

- SHATAKSHI SINGH , 10 ASTER

* THE COLOURS OF MY DREAM*

One day I saw a rainbow high,
Shining bright across the sky.
Each colour had something to say,
To help me learn and guide my way.
Red said, "Be strong, don't feel low."
Orange said, "Let your talent grow."
Yellow smiled, "Be happy and bright."
Green said, "Do what's kind and right."
Blue said, "Be calm, don't always race."
Indigo said, "Find your special place."
Violet said, "You are enough,
Even when the path feels tough."
I smiled and looked up in the air,
Dreaming big without a care.
I saw a tree with branches wide,
A little bird sat there with pride.
She tried to fly and fell down twice,
But kept on trying — that was nice.
"I was scared," the bird said slow,
"But I didn't stop, I gave it a go."
She flapped her wings, and off she flew,
I cheered for her — she made it through!

The river flowed beside my feet,
It sparkled in the sunny heat.
It said, "Life flows, just like me,
Go with hope, and you'll be free."
There may be rocks along the way,
But you can pass them every day.
Its words stayed softly in my mind,
Keep moving forward, and be kind.
At night I met my closest friend,
We talked and laughed without an end.
She said, "True friends are always near,
Even if we're not so clear."
"A friend is someone who understands,
Who holds your heart and holds your hands."
Her words felt warm, true and deep,
They stayed with me, even in sleep.
I saw my mother's smiling face,
Her hug was soft; her touch was grace.
She looked at me with eyes so bright,
And told me, "You'll be alright."
She said, "Believe in what you do,
There's nothing too big for you."
Her love is strong, her care is pure,
In every fear, she is the cure.

- CHIRAG T. SHINGOLE, 7 BLUBELL

SAVE WATER, SAVE LIFE

Water is one of the most important resources on Earth. All living things - humans, animals, and plants - need water to live. We use water every day for drinking, cooking, cleaning, and farming. But sadly, many people waste water without realizing how precious it is.

Our planet has a lot of water, but most of it is salty and cannot be used. Only a small amount is fresh water that we can drink. That's why we must save water wherever we can. Simple actions like closing taps properly, using a bucket instead of a shower, and fixing leaking pipes can make a big difference.

If we continue wasting water, there might not be enough for everyone in the future. By saving water, we are not only helping ourselves but also protecting life on Earth. Remember - every drop counts. Let's all promise to use water wisely and spread the message: Save Water, Save Life!

- AISHA KAZI, 5 CARNATION

WINGS OF DREAMS

Inside these walls, our dreams take flight,
Guided by knowledge, shining bright.

Each lesson learned, each page we turn,
Lights the spark for which we yearn.

Chalk and board, ideas grow,
Planting seeds we do not know.

Friendship, laughter, moments dear,
Become the treasures of each year.

We stumble, try, and rise again,
Through joy and sometimes little pain.

For every step along the way,
Shapes the person of someday.

So let us dream and dare to try,
With hopeful hearts that touch the sky.

For in our school, we start to see,
The best of who we're meant to be.

- ANSHIKA RAI, 7 CARNATION

HEALTH IS TRUE WEALTH

A boy name Ramesh was a young boy. who loved eating junk food and playing video games all day. He never exercise done offence ignore meals made at home . Soon, started feeling tired and feel sick frequently.

One day, his doctor advised him to change his lifestyle. Ramesh begin eating healthy food, waking up early, also reduce screen time and played outdoor games with his friends.

After a few week, Ramesh felt active and happy. He understood that good health makes life joyful and successful

In today's world health problems are increasing due to unhealthy food habits lack of physical activities , stress and use of mobile phones. Doctors and health experts advice people follow a balanced diet exercise , manage stress, reduce screen time. Regular health checkups good sleep and mental well being are very important.

IN today's fast changing life-style, health has become one of the most important to human life. mental health is as important as a physical health in today's life style.

Moral of the story: Health is very important specially in today's life

LETTER TO MYSELF

I am capable of greatness,
And want the world to see it;
I want to stand up on a mountain, and as loud as I can scream it.
Make an announcement to the world
That I won't be defeated-
By the anxiety inside of me,
I've been trying to defeat it.
And I'd be lying to myself,
I said I didn't struggle-
'Because these voices in my head Sometimes have seen me double
But I've been livin' right,
I've been shifting' through the rubble; Now, even on my darkest night,
There's light at the end of the tunnel.
I've been livin' in a bubble,
But it's time for me to break it-Please hand me another shovel,
because I can hardly take it

A REFLECTION OF PRIDE AND PURPOSE

Where there is harmony, there is strength; where there is purpose, there is success.

As we conclude another successful academic year at Harmony School, I reflect with sincere pride and gratitude on the journey we have shared. True to our name, our institution remains a place where learning thrives in harmony, talents develop with purpose, and every achievement contributes to our collective pursuit of excellence.

Throughout the year, our students have demonstrated not only strong academic performance but also resilience, leadership, integrity, and compassion. Their growth into confident and responsible individuals is a testament to the values upheld by our school community.

I extend my heartfelt appreciation to our dedicated teachers for their commitment and professionalism in guiding and inspiring our students. I also thank our parents for their continued trust and partnership, which strengthen the foundation of our shared mission.

At Harmony School, we strive not only to educate but to nurture character and inspire aspiration. It is a privilege to serve this institution and witness its continued progress.

As we look ahead, may we continue to grow in harmony, act with purpose, and achieve success together.

MS. KANCHAN SINGH
(Coordinator)

A JOURNEY OF LEARNING AND TRANSFORMATION

"Education is the manifestation of the perfection already in man." – Swami Vivekananda

As we come to the end of another academic year, we reflect on a journey that has shaped not only intellect but also character, confidence, and perspective. We take pride in the growth and transformation witnessed among our students, as each experience has contributed to their academic as well as personal development.

Our classrooms have become vibrant learning spaces where curiosity is encouraged and creativity is nurtured. Through academics, sports, cultural programmes, and club activities, students have discovered their strengths, built resilience, and learned the importance of teamwork and leadership.

The dedication of our educators has played a vital role in guiding learners toward excellence while instilling values such as discipline, empathy, and responsibility. We sincerely express our gratitude to our teachers for their commitment and to our parents for their constant support and trust, which strengthen our educational journey.

At Harmony School, we remain committed to holistic education, nurturing young minds with knowledge, values, and skills, and shaping responsible citizens ready to embrace the future with confidence.

MS. SASMITA ROUTRAY
(Coordinator)

NURTURING CURIOSITY

“As we nurture young minds, we are planting seeds of curiosity and kindness that will grow for a lifetime.”

Education is far more than the pursuit of academic excellence; it is the gentle shaping of character, creativity, and resilience. In the early years especially, every question asked, every mistake made, and every small discovery becomes a stepping stone toward lifelong learning.

Our goal is to foster a genuine love for learning through purposeful play, creating a safe and inclusive environment where every child feels valued, confident, and inspired to explore their unique potential. When children are encouraged to wonder, to imagine, and to try again after setbacks, they begin to understand that growth comes from effort and belief in themselves.

Success is not achieved alone. It blossoms through a strong partnership between dedicated teachers and supportive parents, working hand in hand to guide and encourage each child. Together, we help our students see challenges not as obstacles, but as opportunities to learn and grow.

“Every child is a different kind of flower, and together they make this world a beautiful garden.”

Let us continue inspiring our children to reach for the stars, knowing that the care, dedication, and encouragement we provide today lay the foundation for their bright and promising future.

Keep growing, keep shining!

MS. GEETA SINGH
(Coordinator)

REFLECTION OF JOY AND DEDICATION

As we reach the end of another beautiful and fulfilling academic year, my heart is filled with immense pride and gratitude for the journey we have shared together. Each day in our kindergarten has been a celebration of curiosity, laughter, learning, and growth.

Our little learners have taken their first confident steps into the world of education with enthusiasm and innocence. Beyond letters and numbers, they have learned to share, care, express, and explore. Watching them blossom into happy, confident, and independent children has been the most rewarding part of my role as a Kindergarten Coordinator.

I sincerely appreciate our dedicated teachers, whose patience, creativity, and warmth make every classroom a nurturing space for young minds to flourish. My heartfelt thanks also go to our parents for their continuous trust, cooperation, and encouragement, which strengthen our partnership in shaping the future of our children.

In kindergarten, we do more than teach—we build foundations, inspire dreams, and nurture hearts. It is truly an honor and privilege to guide our youngest learners and contribute to the strong beginnings that shape their lifelong journey of learning.

(Art Teacher)

कलेविषयी लेख

कला ही मानवी भावनांची, विचारांची आणि कल्पनाशक्तीची सुंदर अभिव्यक्ती आहे. मानवाने आदिम काळापासून आपल्या अनुभवांना आणि भावना व्यक्त करण्यासाठी कलेचा उपयोग केला आहे. गुहांमधील चित्रांपासून ते आधुनिक डिजिटल कलेपर्यंत कलेचा प्रवास अतिशय समृद्ध आणि प्रेरणादायी आहे. कला विविध प्रकारांमध्ये विभागली जाते. चित्रकला, शिल्पकला, संगीतकला, नृत्यकला, नाट्यकला, साहित्यकला इत्यादी प्रकारांद्वारे कलाकार आपले विचार व्यक्त करतो. चित्रकलेत रंगांच्या माध्यमातून भावना व्यक्त केल्या जातात, तर संगीतकलेत सुरांच्या माध्यमातून मनाला स्पर्श केला जातो. नृत्य आणि नाटक या कलांमधून शरीरभाषा आणि अभिनयाच्या साहाय्याने कथा सादर केली जाते. कला ही समाजाचे प्रतिबिंब असते. ती समाजातील संस्कृती, परंपरा, मूल्ये आणि बदल दाखवते.

कला माणसाला संवेदनशील बनवते, त्याची सर्जनशीलता वाढवते आणि मानसिक समाधान देते. विद्यार्थ्यांच्या सर्वांगीण विकासासाठी कला शिक्षण अत्यंत आवश्यक आहे. कलेमुळे आत्मविश्वास वाढतो आणि व्यक्तिमत्त्व घडते. आजच्या तंत्रज्ञानाच्या युगात कलेने नवे रूप धारण केले आहे. डिजिटल आर्ट, फोटोग्राफी, ॲनिमेशन, ग्राफिक डिझाईन यांसारख्या नव्या शाखा उदयास आल्या आहेत. सोशल मीडियामुळे कलाकारांना आपली कला जगभर पोहोचवण्याची संधी मिळाली आहे. मुलांसाठी कलेचे महत्त्व- कला ही मुलांच्या सर्वांगीण विकासासाठी अत्यंत महत्त्वाची आहे. लहान वयातच मुलांना चित्रकला, संगीत, नृत्य, नाटक यांसारख्या कलांचा परिचय झाला तर त्यांच्या व्यक्तिमत्त्वावर सकारात्मक परिणाम होतो.

१) सर्जनशीलता वाढवते

कलेमुळे मुलांची कल्पनाशक्ती विकसित होते. चित्र रंगवताना किंवा गोष्ट तयार करताना मुलं स्वतःचे वेगळे विचार मांडतात. त्यामुळे त्यांची सर्जनशीलता वाढते.

२) आत्मविश्वास वाढतो

मुलांनी केलेले चित्र, नृत्य किंवा गाणे इतरांसमोर सादर केल्यावर त्यांचा आत्मविश्वास वाढतो.

“मी काहीतरी करू शकतो” ही भावना त्यांच्या मनात निर्माण होते.

३) भावनिक विकास

कलेच्या माध्यमातून मुलं आपल्या भावना व्यक्त करू शकतात. राग, आनंद, भीती

किंवा उत्साह - या सर्व भावना ते रंग, सुर आणि हालचालींमधून व्यक्त करतात. त्यामुळे त्यांचा भावनिक समतोल राखला जातो.

४) एकाग्रता आणि संयम

चित्र काढताना किंवा एखादे वाद्य शिकताना मुलांना लक्ष केंद्रीत करावे लागते. त्यामुळे त्यांची एकाग्रता आणि संयम वाढतो.

५) सामाजिक कौशल्ये

गटाने नाटक किंवा नृत्य सादर करताना मुलं एकमेकांशी सहकार्य करायला शिकतात.

त्यामुळे त्यांच्यात टीमवर्क आणि संवाद कौशल्ये विकसित होतात.

कला ही केवळ छंद नसून मुलांच्या बौद्धिक, भावनिक आणि सामाजिक विकासासाठी आवश्यक आहे. म्हणून प्रत्येक पालक आणि शिक्षकांनी मुलांना कलेसाठी प्रोत्साहन द्यावे. कला ही जीवनाला सुंदरता आणि अर्थ देणारी शक्ती आहे. ती केवळ मनोरंजनासाठी नसून समाज घडविण्याचे आणि संस्कृती जपण्याचे महत्त्वाचे साधन आहे. म्हणूनच प्रत्येकाने कलेचे जतन करावे आणि तिचा आदर करावा.

MS. ANUKAMPA SINHA
(Teacher)

A SCIENTIFIC APPROACH TO LEARNING:

A scientific approach to learning involves moving away from passive methods like cramming and re-reading, and instead using strategies backed by cognitive psychology to improve memory, retention, and understanding. The core of this approach is active engagement, where the brain is forced to retrieve and apply information rather than simply consuming it.

Here are key elements of a scientific approach to learning,

1. The Power of Active Recall (Testing Yourself)

What it is: Forcing your brain to retrieve information without looking at your notes.

How to do it: Use flashcards, take practice tests, or close your book and write down everything you remember on a blank sheet of paper (known as "blurting").

2. Spaced Repetition (Spacing Out Study Sessions)

What it is: Reviewing material over increasing intervals of time—e.g., 1 day later, 3 days later, 1 week later.

Why it works: It combats the "forgetting curve," ensuring that information moves from short-term to long-term memory.

3. Smart Time Management

The brain has a limited attention span. Pushing through hours of studying leads to fatigue and burnout.

How to do it: Study in 25-minute, high-focus sessions, followed by a 5-minute break. After four cycles, take a longer 15–30 minute break.

4. Learn by Teaching

How to do it: Act as if you are teaching the topic to someone else (or a younger student) in plain language.

Why it works: This process highlights gaps in your knowledge, forcing you to go back and study the weak areas.

5. Mixing Subjects

Instead of studying one topic for three hours, mix different subjects or types of problems in one session.

- Why it works: It trains brain to identify which method or formula to apply, improving problem-solving abilities, especially for math and science.

6. Using Visuals

Combine words with visuals to create stronger memory pathways.

- How to do it: Create mind maps, diagrams, or infographics to explain concepts instead of relying only on text notes.

The "Smart" Study Habit:

Avoid: Passive re-reading and highlighting.

Adopt: Active, self-testing, and spaced-out practice.

Environment: Study in a quiet, organized space and eliminate distractions like phones.

Health: Prioritize sleep and exercise, as they are essential for memory consolidation.

सा मम जीवने दीपः सम् जगति।
मां सदैव पूजनीयम्, आदरं कर्तव्यं च।

MS MADHURI TIRKEY
(Special Educator)

THERE IS ABILITY IN EVERY DISABILITY

Every learner possesses unique strengths and potential. Disability should never be viewed as a limitation, but as a different way of learning, thinking, or performing tasks. With appropriate guidance, support, and opportunities, students with disabilities can achieve meaningful success across academic, creative, and social areas.

True inclusion means recognizing abilities rather than focusing on challenges. Many individuals with disabilities demonstrate exceptional determination, creativity, problem-solving skills, and resilience. When educators and families work together to provide the right environment and encouragement, these strengths can be developed into remarkable achievements. An inclusive school culture promotes respect, equal opportunity, and empathy. By valuing diversity in learning and ability, we build a community where every student feels confident and empowered to grow. With understanding and support, barriers can be reduced and potential can be realized. There is ability in every disability — and it is our shared responsibility to nurture and celebrate it.

DIGITAL WELLNESS CHECKLIST

- Use the 20-20-20 rule for eye strain.
- Every 20 minutes, look 20 feet away for 20 seconds.
- Charge your phone outside the bedroom at night.
- Set time limits for social media.
- Switch screen to grayscale to reduce eye strain.
- Don't use digital devices, one hour before sleep.
- Disable non-human notifications (Turn off app alerts).
- Take a 15-minute 'analog' walk daily without a phone.
- Clean up your 'following' list (unfollow accounts that make you feel bad).

HARMONY SCHOOL हमारा अभिमान

Harmony School हमारा मान,
यहाँ सजे हैं सपनों के अरमान।
छात्र यहाँ फूल से प्यारे,
मेहनती, हँसमुख, सपनों के सहारे।

शिक्षक हमारे दीपक बने,
ज्ञान की ज्योति से जीवन सजाते।
सही दिशा दिखाते हर पल,
उनसे ही होता हर मन सफल।

हमारी प्रिंसिपल मैडम महान,
सदैव रखते सबका ध्यान।
अनुशासन, मेहनत, सच्चाई की बात,
उनसे सीखें जीवन की सौगात।

कोऑर्डिनेटर हैं मार्गदर्शक हमारे,
समझते सदा प्रेम से सारे।
मिल-जुलकर हम सब बढ़ते जाएँ,
Harmony का नाम जग में छाएँ।

विद्यालय है जैसे एक परिवार,
जहाँ हर दिल में बसता प्यार।
ज्ञान, संस्कार, अनुशासन का मूल,
जय हो मेरी Harmony School!

विद्यालय के सुनहरे दिन

विद्यालय की छाँव में, सपनों को मिलती उड़ान।
गुरु कृपा से बन सके, जीवन में इंसान॥

विद्यालय का जीवन हमारे जीवन का सबसे अनमोल और सुखद समय होता है। यही वह स्थान है जहाँ हम पढ़ना-लिखना सीखते हैं, नए मित्र बनाते हैं और जीवन के महत्वपूर्ण संस्कार प्राप्त करते हैं। बचपन की मासूमियत, मित्रों के साथ हँसी-खुशी के पल और शिक्षकों का स्नेह - ये सब मिलकर विद्यालय के दिनों को सुनहरा बना देते हैं।

सुबह की प्रार्थना सभा से दिन की शुरुआत होती है। कक्षा में शिक्षकों की मधुर वाणी से ज्ञान प्राप्त होता है। कभी पढ़ाई, कभी खेलकूद, तो कभी सांस्कृतिक कार्यक्रम - हर दिन कुछ नया सिखाता है। विद्यालय हमें अनुशासन, समय का मूल्य, सहयोग और सम्मान की भावना सिखाता है।

“विद्यालय वह स्थान है, जहाँ ज्ञान के साथ संस्कार भी मिलते हैं।”

मित्रों के साथ बिताया गया समय सबसे अधिक यादगार होता है। साथ बैठकर पढ़ना, खेलना, टिफिन बाँटना और छोटी-छोटी शरारतें करना - ये पल जीवन भर हमारे चेहरे पर मुस्कान ले आते हैं। शिक्षक हमारे मार्गदर्शक बनकर हमें सही रास्ता दिखाते हैं और हमारे भविष्य की नींव मजबूत करते हैं।

जब हम बड़े हो जाते हैं, तब यही विद्यालय के दिन यादों का खजाना बन जाते हैं। सचमुच, विद्यालय के सुनहरे दिन जीवन के सबसे सुंदर दिन होते हैं। हमें इन पलों को संजोकर रखना चाहिए और विद्यालय से मिली सीख को अपने जीवन में अपनाना चाहिए।

विद्यालय की प्यारी यादें,
मन में खुशियाँ भर जाती हैं।
मित्रों संग हँसते-गाते,
दिन सुनहरे बन जाते हैं।
वीणा विनायक जंगम

THE POWER OF SELF-BELIEF

Life is a beautiful journey filled with countless opportunities. Each day gives us a new chance to learn, improve, and move closer to our dreams. Instead of looking back at our mistakes with regret, we should treat them as lessons that make us stronger and wiser. When we choose to think positively, we begin to see possibilities everywhere.

Education and discipline are the strongest pillars of success. They not only shape our knowledge but also build our character. Sometimes, people come into our lives to teach us important lessons. Some moments bring happiness, while others bring challenges. Yet, every experience helps us grow and prepares us for a brighter future.

In this world, no one can help us unless we first decide to help ourselves. Confidence and courage are the keys to overcoming difficulties. When we believe in our abilities and stay determined, we can face any obstacle with strength.

Let us promise to stay bold, confident, and hardworking. Let us move forward with hope in our hearts and faith in ourselves.

“Believe in yourself, and you will be unstoppable.”

MS. SNEHA DOMINIC
(Counsellor)

“WHAT MAKES YOU DIFFERENT IS WHAT MAKES YOU BEAUTIFUL”

Every child who walks into a classroom carries a unique story. Some stories unfold easily, while others require patience, understanding, and compassion.

Children with disabilities are not defined by what they cannot do. They are defined by their resilience, creativity, sensitivity, and strength. A child who struggles with reading may excel in art. A child who finds social interaction challenging may possess extraordinary focus or memory. A child with physical limitations may develop remarkable emotional intelligence. Their differences are not weaknesses; they are variations of human experience.

Acceptance begins at home. When parents accept their child wholeheartedly including their challenges they lay the foundation for confidence and self-worth. Children are deeply influenced by how their parents respond to their abilities and limitations. If a parent sees a disability as a burden or flaw, the child may internalize shame. But when a parent embraces their child with pride, encouragement, and belief, the child learns to value themselves.

As parents, it is important to understand that no child is perfect. Every child, whether typically developing or differently-abled, has strengths and areas of difficulty. Accepting a child's "flaws" does not mean giving up on their growth. It means acknowledging reality with love, providing support without comparison, and celebrating progress rather than perfection.

As a counsellor, I often remind parents that their acceptance is the mirror in which their child first sees themselves. When that mirror reflects love and belief, the child begins to shine with confidence. When we focus on strengths instead of shortcomings, we empower children to discover their potential. In the end, differences are not imperfections to be hidden; they are qualities to be understood and appreciated. What makes a child different is truly what makes them beautiful.

As Helen Keller wisely said, “The best and most beautiful things in the world cannot be seen or even touched. They must be felt with the heart.”

(Teacher)

RIDDLES!!!

MYSTERY OF CHEMISTRY

The Building Blocks
We are tiny, smaller than sight,
Yet build all matter with quiet might.
Protons, neutrons, electrons too—
Together we make me and you.

What are we?
Answer: Atoms

The pH Master
Fourteen numbers I command,
From strongest acid to strongest base land.
Seven sits neutral in the middle zone—
Chemistry's balance is clearly shown.

What am I?
Answer: pH scale

The Acid's Warning
I may look clear just like pure rain,
But touch my pH and you'll feel pain.
Below seven is where I stay,
Turning blue litmus red on display.

What am I?
Answer: Acid

The Genetic Blueprint
Twisted ladder, tightly curled,
I hold the code of every world.
From eye color to how you grow,
Inside each cell my secrets flow.

What am I?
Answer: DNA

The Invisible Architect
I have no mass, yet I hold you tight.
I work all day and all through night.
Planets, tides, and falling rain—
Without me, Earth would drift in vain.

What am I?
Answer: Gravity

The Cosmic Speed Limit
Nothing outruns me, try as you might.
In vacuum I travel at ultimate height.
Space and time depend on my pace—
I set the rules for the cosmic race.

What am I?
Answer: The speed of light

The Breath of Life
I enter your lungs but am not alive,
Without me, few creatures survive.
I fuel the fire inside your cells,
In every breath my story dwells.

What am I?
Answer: Oxygen

Teacher

**FROM SCHOOL TO SUCCESS
(An Acrostic Journey)**

SCHOOL

Seeds of curiosity are planted in young minds.
Challenges shape character and confidence.
Hope shines in every questioning eye.
Opportunities bloom within classroom walls.
Outstanding dreams quietly begin here.
Lessons learned become life's guiding light.

LITERATURE

Language gives wings to imagination.
Ideas travel beyond time and borders.
Thoughts find expression through powerful words.
Emotions breathe through stories and poems.
Reading builds empathy and understanding.
Art of expression refines young voices.
Tales of courage inspire strong hearts.
Unknown worlds unfold page by page.
Reason and reflection grow together.
Education becomes meaningful through stories.

LEARNING

Life lessons extend beyond textbooks.
Every mistake becomes a stepping stone.
Ambition rises with knowledge gained.
Resilience develops through effort.
Nurturing minds is a teacher's true joy.
Innovation begins with imagination.
Never stop asking "why."
Growth is the greatest reward of learning.

SUCCESS

Strength grows from perseverance.
Unity and understanding build strong communities.
Character defines true achievement.
Confidence turns dreams into action.
Effort shapes excellence.
Service to others makes success meaningful.
Shine not only in marks, but in values.

Education is not merely the completion of a syllabus; it is the cultivation of character, creativity, and confidence. May our students continue to grow, explore, and shine – not only in academics, but in humanity.

MR. DHIRAJ SALUNKE
(Music Teacher)

“The Role of Music in Nurturing Young Minds”

Music is a wonderful part of a child’s education, helping them grow both academically and emotionally. In class, even simple activities like clapping out rhythms or following a song can make lessons easier to remember and more enjoyable. Singing in a choir or playing in a band teaches children teamwork, patience, and discipline, while also giving them a chance to express themselves creatively. Music also boosts confidence, sparks imagination, and helps children manage stress, making school a more positive experience. When children engage with music, they don’t just learn—they develop skills and qualities that stay with them for life.

BUILD YOURSELF LOVE NOT PRESSURE

The direction of your focus is the direction your life will move. Let yourself move towards what is good, valuable strong and true. You are the greatest project you will ever work on, and that’s exactly why you deserve to treat yourself with patience, love and care. It’s not just about taking care of your body-its about nurturing every part of yourself. This includes the way you speak to yourself, how well you honor your boundaries and whether you ensure that others do the same. Your body is your foundation and what you give it -both physically and emotionally -shapes the way you feel, think and grow. Nutrition is a powerful piece of this puzzle. Your energy, your mood and even your clarity of mind are deeply tied to how you nourish your body. But instead of punishing yourself with endless diets or chasing unrealistic ideals, approach food with a mindset of kindness and gratitude. You deserve to enjoy meals the fuel your strength and well- being – not as a reward, but as an act of self respect. Taking care of yourself doesn’t end there. It’s about creating small, meaningful moments that make you feel good. Run a warm bath when your body feels heavy; take your time to moisturize every evening- not for anyone else, but because it feels like a hug to your skin. Self-care isn’t about meeting society’s standards; its about showing up for yourself in ways that make you feel whole. Set goals that excite you – not to gain someone else’s approval, but because you know you’re capable. Let your dreams be driven by the the belief you have in yourself, not by the pressure to meet expectations that don’t align with your heart. When you treat yourself with kindness, respect and love, you’ll notice something powerfull; you don’t need external validation to feel worthy . The strength you ‘ve built from within becomes the only approval you’ll ever need.

(Teacher)

MS. ANJU DEVI
(Teacher)

LAUGHTER IS THE FOUNTAIN OF WISDOM

We are blessed with the gift of laughter by the Almighty . Laughter is the best healer during the difficult phase of life. Laughter acts as a "fountain of wisdom" and joy by reducing our stress, boosting our emotional resilience, and fostering a positive perspective, often we term it as the "gospel of laughter". It acts as a transformative tool that helps us overcome adversity, with practices like laughter yoga providing a path to unlock inner joy. Take time to laugh ,it is the source of joy .

मराठीचा उद्गम

मराठी ही अभिजात भाषा आहे. तिला प्रदीर्घ परंपरा असून जवळजवळ १५०० वर्षांचा इतिहास जापणारी मराठी भाषा आहे. उत्तरेकडील सातपुडा पर्वत रांगांपासून ते कावेरीच्या पश्चिमेकडील प्रातांपर्यंत उत्तरेस दमणपासून दक्षिणेकडे -गोव्यापर्यंत मराठीचा विस्तार झाला. इ.सन ५००- ७०० वर्षांपासून पूर्ववैदिक, उत्तरवैदिक संस्कृत, पाली, प्राकृत, अपभ्रंश या टप्यातून उत्क्रांत होत आलेली असली तरी प्राकृत भाषेतून तिचा विकास झाला असा एक विचार प्रवाह आहे.

मराठी भाषेतील पहिले वाक्य श्रवणबेळगोळ येथील शिलालेखावर सापडले - हे वाक्य शके ९०५ मधील असून "श्री चामुण्डेराये करविले." असे आहे. तर , शके १११० मधील मुकुंदराजानी रचलेला 'विवेकसिंधू' हा ग्रंथ मराठी भाषेतील पहिला ग्रंथ आहे. या ग्रंथाचे महत्व प्राचीन मराठी भाषेचा विचार करताना अनन्यसाधारण आहे. आणि म्हणूनच मराठी साहित्य परंपरेत मुकुंदराजांना ' आद्यकवी' म्हणून संबोधले जाते .

महाराष्ट्र आणि मराठी यातील ऋणानुबंध प्राचीन आहे. मरहट्टी, महारठी असा महाराष्ट्राच्या मराठीचा उत्पत्तीचा विचार केलेला आहे. वारकरी संप्रदायाचा पाया रचणाऱ्या ज्ञानेश्वरांचे " परि अमृताते ही पैजा जिंके। ऐसी अक्षरे रसिक मेळविन." अशा शब्दात मराठी भाषेचा गोडवा अमृता पेक्षाही जास्त आहे .

१३ व्या शतकातील मराठी भाषा आजच्या वाचकालाही तितकीच आपलीशी वाटते . कालानुक्रमे मराठीच्या उगमापासून मराठीच्या स्वरूपात अनेक बदल झालेले दिसतात.

आणि आजतागायत ते चालू आहे.....

* शिक्षक का अर्थ है *

- शि - शिखर तक ले जाने वाला
- क्ष - क्षमा की भावना रखने वाला
- क - कमजोरी दूर करने वाला

अर्थात :

जो विद्यार्थी की हर गलती को क्षमा करने की भावना रखता है और उसकी हर कमजोरी को दूर करता है। शिखर (सफलता) तक ले जाता है वही सच्चा शिक्षक कहलाता है।

MS. SABINA OWES MINANI
(Teacher)

"THE WHOLE WORLD IS A CLASSROOM, AND EVERY EXPERIENCE IS A LESSON."

True education doesn't stop when the bell rings; it begins the moment you step into the world. While classrooms provide the foundation, life offers the laboratory. Whether you are organizing a community event, mastering a new digital craft, or solving real-world challenges, you are building the resilience and creativity that no exam can measure. Don't just study the world—engage with it. Let your curiosity be your compass and every experience your teacher.

MR. SANJAY MISHRA
(Teacher)

"BOOKS ARE UNIQUELY PORTABLE MAGIC."

It is rightly said that reading is the best source of knowledge. Every time you read you get new bits of information and knowledge that are useful. The more knowledge you possess more wisely you handle various situations in life. The knowledge you get from reading is the true wisdom as you may lose anything in life but not knowledge.

In addition to academic benefits reading strengthens imagination and critical thinking. Fiction encourages us to picture characters and settings while non-fiction teaches us how to analyze information. These skills help when making decisions or solving problems.

MS. HUSN JAGWANI

THE UNSEEN EMAILS TO THE UNIVERSE

Praying is like sending heartfelt emails to the cosmos, pouring out our dreams, worries, and thank-yous to the Big Guy upstairs. When we hit "send," we're wrapped in a warm, cosmic blanket, ready to tackle life's roller coaster. Prayer is a beacon of hope, a reminder that we've got a buddy in the universe.

We often imagine our prayers will be granted with a fairy godmother's flourish. But sometimes, the universe replies with a "yes," a "nope," or a "hold your horses." Even if our dreams don't unfold as planned, it might just mean there's a surprise party of blessings waiting around the corner.

Praying nudges us to channel our inner patience, kindness, and superhero work ethic. It whispers, "Believe in yourself!

Everything's happening with a cosmic wink."

So, rest assured, prayers are always answered—just with a twist ending that might surprise us!

THE ROLE OF DANCE IN EDUCATION

Dance plays an important role in the holistic development of students. It is not only a form of art but also a powerful medium of self-expression, creativity, and cultural awareness. Through dance, students learn discipline, coordination, and teamwork while improving their physical fitness.

Participation in dance activities helps students build confidence and overcome stage fear. School performances and cultural events provide valuable opportunities for students to showcase their talents and develop a sense of achievement.

Moreover, dance connects students with cultural traditions and encourages appreciation for the performing arts. It allows young minds to explore creativity while maintaining a healthy and active lifestyle.

Encouraging dance in schools nurtures confident, expressive, and well-rounded individuals. As educators, it is our responsibility to support and inspire students to discover the joy and value of this beautiful art form.

NATIONAL CADET CORPS: OUR DISCIPLINERS

At Harmony School in Kharghar, the National Cadet Corps (NCC) is offered as an important co-curricular and leadership development activity for students. The programme aims to instill discipline, confidence, teamwork, and a strong sense of responsibility among young learners.

The NCC programme follows the principles of the National Cadet Corps, a voluntary youth organisation under the Government of India that combines basic military training with community service and character building. Students receive exposure to structured drill sessions, regular parade practice, and theoretical training. They appear for NCC certificate examinations, attend training camps, and participate in district-level competitions, where many cadets have earned medals and recognition for their performance.

The school ensures proper and regular training under qualified instructors to help students prepare effectively for camps, exams, and competitive events. NCC cadets actively participate in national celebrations such as Independence Day and Republic Day, proudly representing the school and demonstrating their discipline and patriotic spirit.

Overall, NCC at Harmony School plays a significant role in supporting the institution's mission of holistic education – shaping students into disciplined, responsible, patriotic, and confident young citizens.

ARCHERY AND FENCING

ARCHERY AND FENCING INTRODUCED AT HARMONY SCHOOL

This year marks an exciting new chapter in the sporting journey of Harmony School with the introduction of Archery and Fencing to our co-curricular program. With a vision to promote holistic development and provide diverse opportunities for students, the school has expanded its sports curriculum to include these dynamic and skill-based disciplines.

Archery encourages focus, patience, precision, and mental strength. It teaches students the importance of concentration and self-control while building confidence and determination.

Fencing, often described as a sport of strategy and agility, sharpens reflexes, coordination, and quick decision-making skills. It fosters discipline, sportsmanship, and tactical thinking.

Under the guidance of trained instructors and with proper safety measures in place, students are enthusiastically participating and exploring these new sporting avenues. The response has been overwhelming, reflecting their eagerness to take on new challenges.

By introducing Archery and Fencing, Harmony School continues its commitment to nurturing talent, promoting physical fitness, and encouraging excellence beyond academics.

SCHOOL HOUSE

BHASKARA

“IGNITE THE MIND, ACHIEVE THE IMPOSSIBLE.”

Bhaskara Orange House inspires students to shine brightly with knowledge and determination. Following the legacy of Bhaskara’s brilliance and the vibrant spirit of orange, the house motivates its members to achieve success through hard work, teamwork, and confidence.

TYAGARAJA

“GROW WITH HARMONY, LEAD WITH INTEGRITY.”

Tyagaraja Green House represents a blend of cultural heritage and environmental values. Inspired by Saint Tyagaraja’s dedication and the freshness of the color green, the house motivates students to grow academically, morally, and socially while working together as one strong team.

CHANAKYA

“LEAD WITH WISDOM, STAND WITH INTEGRITY.”

Chanakya Blue House inspires students to be thoughtful leaders and responsible individuals. Following the path of Chanakya’s wisdom and the calm strength of blue, the house motivates its members to achieve success through intelligence, teamwork, and strong moral values.

NAGARJUNA

“SHINE WITH WISDOM, GROW WITH POSITIVITY.”

Nagarjuna Yellow House inspires students to brighten their future with knowledge and positive thinking. Following the path of Nagarjuna’s wisdom and the cheerful spirit of yellow, the house motivates its members to achieve success through learning, unity, and confidence.

**Preparing young minds to sustain
nature, culture and future.**
